Navigating the UK innovation landscape - a business eye view

Innovating for the future: Bioeconomy in France & UK

Yvonne Armitage, Knowledge Transfer Network

Industrial Strategy White Paper

"Powered by new technologies, the way we live our lives as workers, citizens and consumers is being transformed across the world."

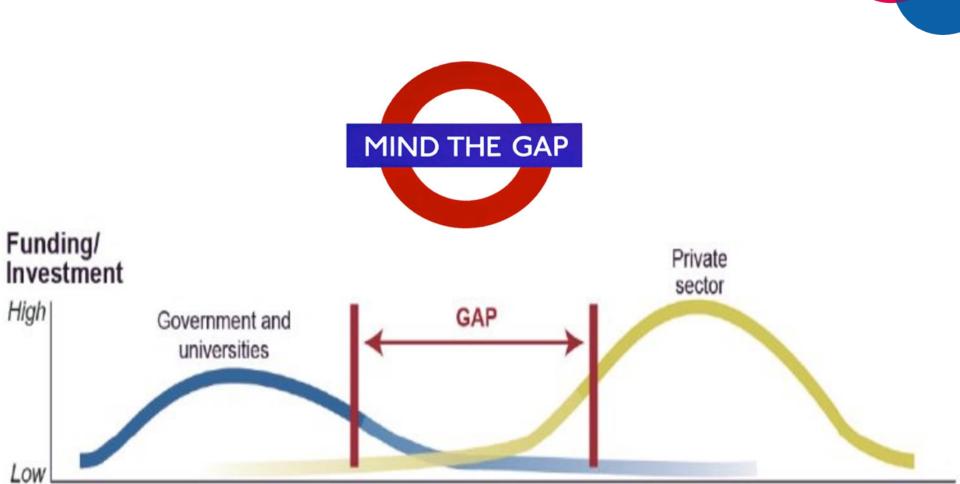

Greg Clarke, Secretary of State, BEIS

- Improve productivity
- Independent Industrial Strategy Council
- R&D increase from 1.7% to 2.4% of national income by 2027
- UK has world class science base in the bioeconomy underpinning technologies

Where Do We Fall Down?

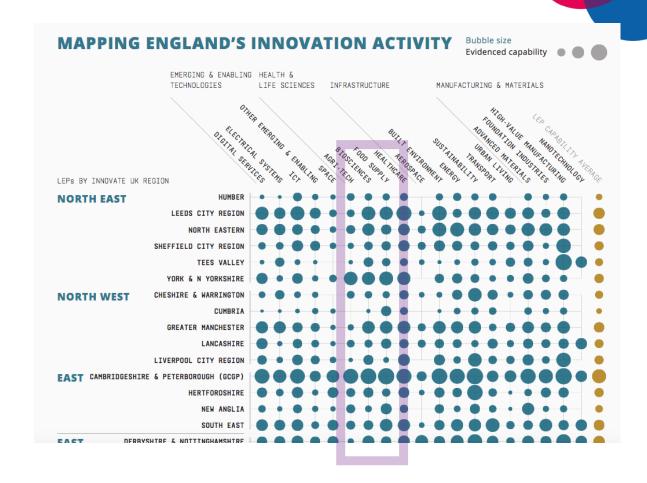

Market failure in all industries is real

Smart Specialisation Hub

- Support national and local government initiatives in smart specialisation strategies
- Increased importance and uniqueness of place
- Science & innovation audits have created consortia to build on local and sector strengths

National and Regional Initiatives

- Place and assets are only part of the picture
- Working across boundaries and sectors

Leveraging and collaborating between existing assets

Capacity and cohort building initiatives

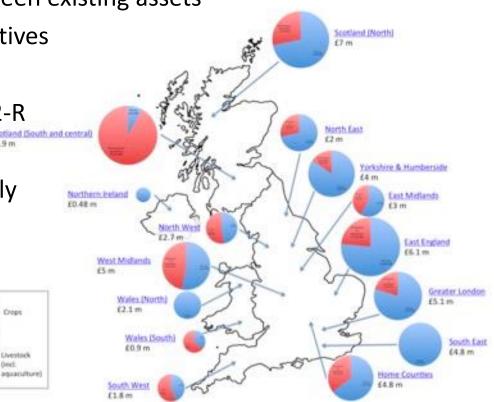

Addressing market failure

Targeted funding for B-2-B and B-2-R

Can identify 'hotspots' and gaps

Facilitate collaborations – especially

across sectors

National and Regional – a Complex Picture for the Bioeconomy?

Industrial Strategy Challenge Fund

Innovate UK

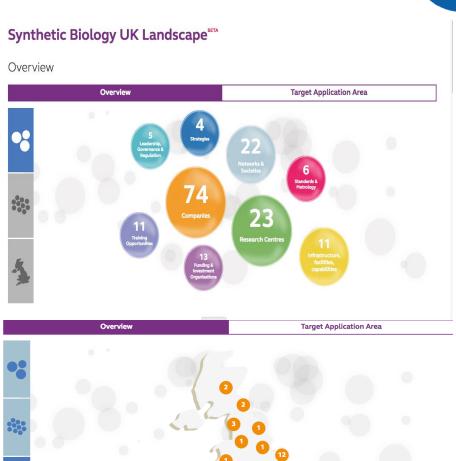

Navigating the Landscape

- Medicines manufacturing
- Medicines discovery
- Process manufacturing
- + 4 others
- Industrial biotechnology on the way

Sector Approach to Supporting Business

Infrastructure Systems Emerging & Enabling Technologies

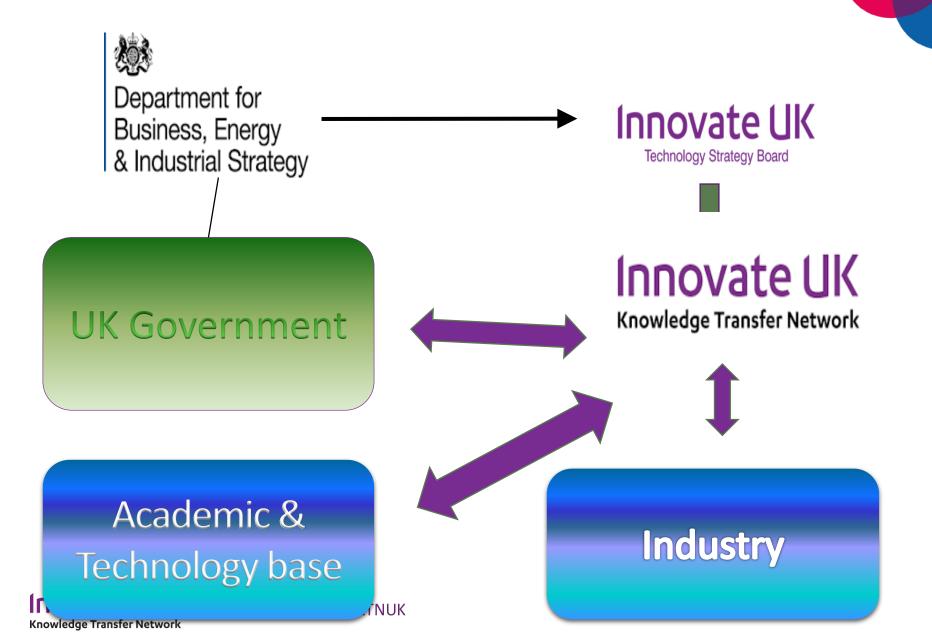

Health and Life Sciences inc AgriTech

Manufacturing and Materials

Open Programme

All subject to change. Competitions schedule includes programmes run with partners – more details on website
